

Ferhan İstanbullu

Ferhan İstanbullu is working on various art projects as content creator.

She is currently a member of the team which curates Atelier Marvy exhibitions and initiatives.

How do you define Marvy's relationship with art?

_ Atelier Marvy is an organic branch of the Marvy complex. The unfeigned warmth rubs on everyone who spends time at Marvy. The guest reviews state that the gallery is the most ambitious yet approachable part of the club. This is an artistic section that exhibits artwork from different disciplines that educate guests to gain different perspectives while still enjoying what's around them. The Atelier also provides workspace for artists for various periods. All exhibitons are results of elaborate work and are supported by special events within the premises. That's another fact that creates that genuineness and warmth.

If we are to summarize the relation between Atelier Marvy and art in a sentence, it is a sincere interaction and not just a stylish show.

How are the artists selected to exhibit in Atelier Marvy?

_ I must state that it is very important for us to host artists and works of different disciplines. The Atelier Marvy program embraces experienced names of the contemporary art as well as the promising young artists and initiatives.

The architecture of the gallery enables various placements and exhibits simultaneously and that makes our objective easier to achieve.

What would be your choice of three words to define Marvy?

_ Aesthetics
_ Elaboration
_ Sincere

What's your favorite contemporary art discipline?

_ I realized that lately I am most intrigued by sculptures, paintings and designs inspired by architecture. My all-time favorites are music and dance, though.

What awaits art lovers in the new season of Marvy?

_ We would like to host initiatives in Atelier Marvy where artists will collaborate to create. The instinct to produce together is as precious as the works of art and this is what we need in today's world as a sustainable example. Collaboration with artists from different disciplines of art, artists who we believe are perfect matches for the soul of Atelier Marvy, constitutes the backbone of our next season's programs. We will also bring together names whose striking works will be exhibited independently yet side by side in the gallery and atelier space. Making all these decisions, there is one thing we keep in mind; that we are exhibiting for people who has come to this serene Aegean spot to have a beautiful time.
